

CAREER EXPLORATION SESSION

DEICING TECHNICIAN

APRIL 23, 2024
4:30pm

The role of a Deicing Technician is engaging and rewarding. Technicians are responsible for safely and efficiently removing winter contaminants such as frost, snow, slush, and ice from aircraft surfaces. They operate deicing equipment, follow established procedures, and ensure compliance with safety regulations.

The technician must have strong attention to detail, physical stamina, and the ability to work in various weather conditions.

To find out more, join Briggs from Elevate Aviation for this informative CES.
